Jerald G. Faustino

Junior Front-End Web Developer Intern

Email: jeraldfaustino@gmail.com | LinkedIn: linkedin.com/in/jerald-faustino
GitHub: github.com/jeraldfaustino | Portfolio: jeraldfaustino.github.io/ojt-project
Preferred setup: Malolos / Bulacan / Metro Manila / Remote

PROFESSIONAL SUMMARY

Fourth-year Computer Technology student at Bulacan State University – College of Industrial Technology. I build clean, responsive web interfaces and use AI-assisted tools to prototype quickly. I am disciplined, document my work, and want to help a partner company ship polished front-end features.

INTERNSHIP DETAILS

- **Target training hours:** 486 / 500 hours
- **Availability:** Starting 2nd Semester A.Y. 2026–2027

EDUCATION

Bachelor of Industrial Technology, Major in Computer Technology
Bulacan State University – College of Industrial Technology | Expected graduation: 2027

FEATURED PROJECT

Student Violation and Record Monitoring System - Front-End Web Developer

- Web system to insert, manage and monitor student violation records and assign sanctions based on violation severity and how often a student repeats the same violation.
- Built the front-end for two portals: an Admin dashboard (student offense overview, conduct status, reports) and a Faculty dashboard (incident filing, searchable incident logs, sanction and review status).
- Planned screens with Figma wireframes and prototypes before coding.
- **Tech stack:** PHP, Java, Figma.

TECHNICAL SKILLS

- **Front-end & core web:** HTML5, CSS3, Flexbox, CSS Grid, Responsive Design, basic JavaScript
- **Tools & platforms:** Git/GitHub, VS Code, Claude, ChatGPT, Cursor, GitHub Copilot, Figma
- **Back-end exposure:** PHP, Java
- **Design & digital media:** Layout prototyping, UI design systems, asset optimization, vector icons
- **Industrial & technical:** Hardware servicing, network configuration, technical interface design

CORE COMPETENCIES

- Rapid AI-assisted prototyping
- Responsive debugging across devices
- Clear technical documentation
- Version control basics with Git
